

EXPERT ELECTRICAL AND ENGINEERS

— Allways with You —

Control Panel Manufacturer | Govt. Licensed Electrical Contractor

ABOUT US

Expert Electrical And Engineers is a reputable and forward-thinking company specializing in the manufacturing and supply of a diverse range of electrical panels to meet various industrial needs.

Our offerings include top-quality Control Panels, Distribution Panels, and Automatic Power Factor Correction (APFC) Panels. With our unwavering dedication to quality and continuous innovation, we have cemented our position as a reliable and esteemed partner for industries seeking dependable and efficient electrical solutions.

At Expert Electrical And Engineers, we take pride in being a leading manufacturer and supplier of an extensive array of electrical panels, such as Control Panels, Distribution Panels, and APFC Panels. We have experienced significant growth in the Control Panel manufacturing sector in India, driven by the unwavering support and trust of our valued customers.

Over the years, we have consistently expanded our product line and service offerings to deliver high-caliber solutions. Additionally, we excel in offering comprehensive Control Panel Installation Services and expert Electrical Maintenance Work to ensure seamless and efficient operations for our clientele.

We believe in long-term business relationships. Our ultimate aim is to satisfy our customers with our products and services. We offer quality products with the best workmanship and ensure genuineness with 100% transparency in our operations.

OUR VISION

Our products And services exactly as per customers requirements & specifications in accordance with international standards & IE rules. All products are crafted carefully to ensure optimum performance. Right from raw material procurement till packing & dispatch, our Q.A. team keep a constant watch eye on each product at different stages of manufacturing & Services.

OUR MISSION

Expert Electrical & Engineers is committed to develop & enhance performance to support customer, supplier & society. Preservation of Business ethic & excellence are the core value of the Expert Electrical & Engineers. We beloved to be the ONE in our Product Services, Support & Commitment to customer , society & Environment.

OUR VALUES

Quality: We are committed to delivering the highest quality in every aspect of our work, from materials to craftsmanship, ensuring that our projects stand the test of time.

Integrity: We conduct our business with honesty and transparency, building trust with our clients, partners, and employees. We uphold the highest ethical standards in all our dealings.

Innovation: We embrace new technologies and innovative practices to enhance our efficiency, safety, and the quality of our projects. We continuously seek to improve and adapt to changing industry needs.

Safety: The safety of our employees, clients, and the communities we serve is our top priority. We adhere to strict safety protocols and promote a culture of safety in all our operations.

Customer Focus: We prioritize our clients' needs and aim to provide exceptional service and solutions tailored to their specific requirements. We believe in fostering strong relationships through open communication and collaboration.

Teamwork: We value the diverse skills and perspectives of our team members. We believe that working together in a collaborative and respectful environment leads to the best outcomes for our clients and our company.

OUR TEAM

Our highly skilled and committed research and development team is continuously working to optimize and tailor the most effective protection designs to meet the specific needs of your site. We are dedicated to implementing protection schemes with multiple layers of defense to ensure the comprehensive safety and security of your facility. Through our extensive range of products and wealth of experience, our solutions have successfully addressed the intricate requirements of diverse industries, including electric utilities, defense and aeronautics, manufacturing plants, multistoried apartments, universities, cluster villas, and hospitals.

WHY US

Over the years, we have built a strong reputation in the industry, resulting in a large and loyal customer base across various sectors. Our long-standing relationships with these customers have led to continued growth in our business.

Some of our main strengths include:

- ✓ High-quality products
- ✓ Timely delivery, adhering to strict deadlines
- ✓ Customized products with a wide range
- ✓ Use of superior raw materials
- ✓ Offering the latest designs
- ✓ Strong presence in the market.

MESSAGE FROM DIRECTORS

We are dedicated to cultivating sustained and meaningful business connections with our clients. Our primary objective is to meet and exceed the expectations of our customers by providing them with exceptional products and services. Our products are meticulously crafted to ensure the highest quality, and we are unwavering in our commitment to transparency, maintaining complete openness in all our operations.

ELECTRIFICATION OF RESIDENTIAL, COMMERCIAL & INDUSTRIAL PROJECTS

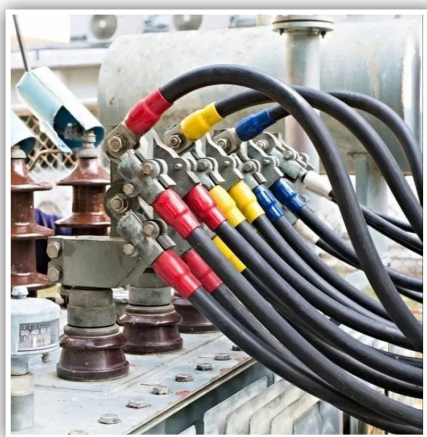

Expert Electricals & Engineers is a leading provider of comprehensive electrification services, specializing in the design, installation, and maintenance of electrical systems for residential, commercial, and industrial projects. With a focus on quality, safety, and innovation, we deliver reliable and efficient electrical solutions tailored to meet the unique needs of our clients. Our team of certified electricians and engineers is committed to ensuring that every project is completed on time, within budget, and to the highest industry standards.

LIAISING WORK WITH MSEDCL & OTHER DISTRIBUTION COMPANIES

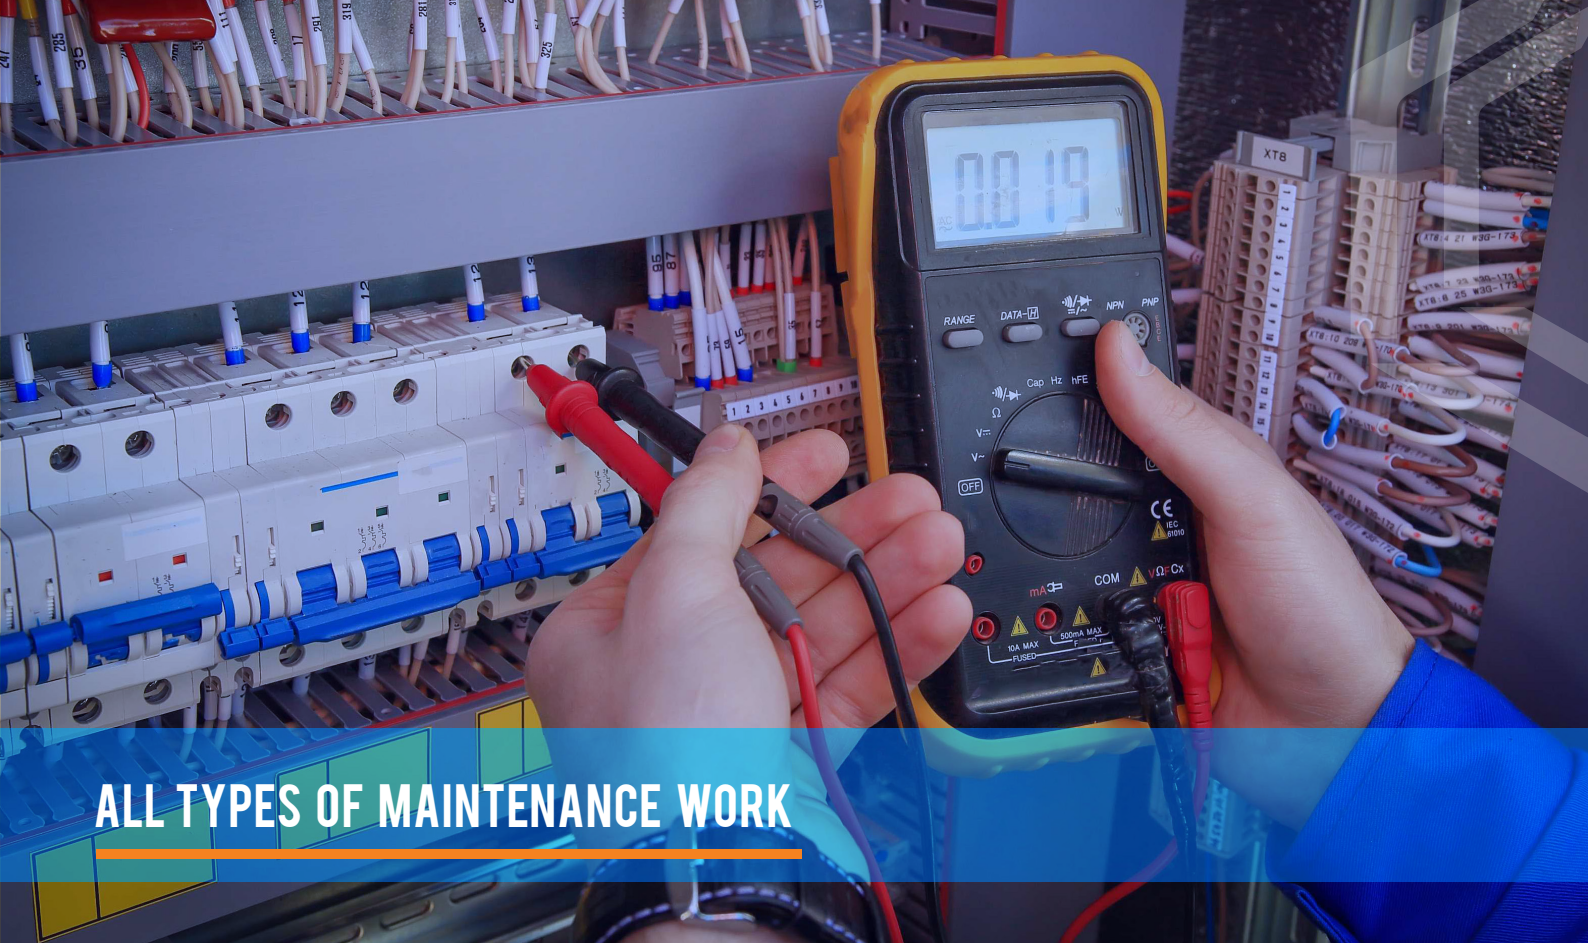

We provide liaison services for MSEDCL and other distribution companies for our clients. Our experts handle these services in accordance with industry standards, which include application submissions, processing and obtaining load assurance/sanction, completing the work, and obtaining release orders. We offer these services to our clients at an affordable price.

HT & LT CABLING WORK

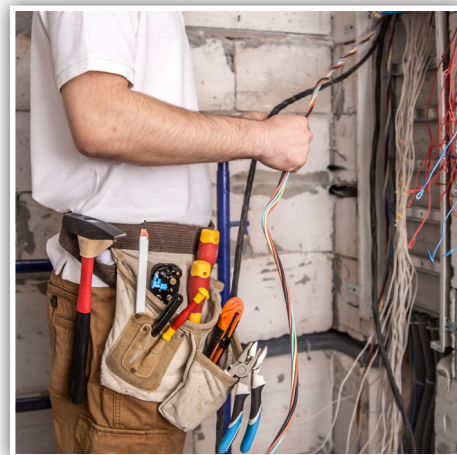

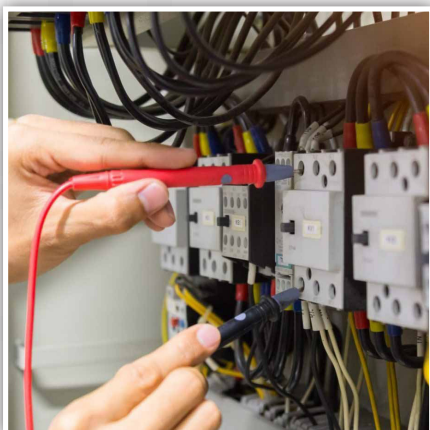

Expert Electricals & Engineers excels in providing comprehensive industrial electrical solutions with multiple teams dedicated to HT & LT cable laying work. These teams, led by experienced electrical engineers, handle supply, testing, commissioning, and installation of HT and LT cables in various settings such as trenches, trays, and underground pipes. With over 3 years of expertise in HT & LT panel lines, our versatile team is prepared to undertake projects anywhere in India.

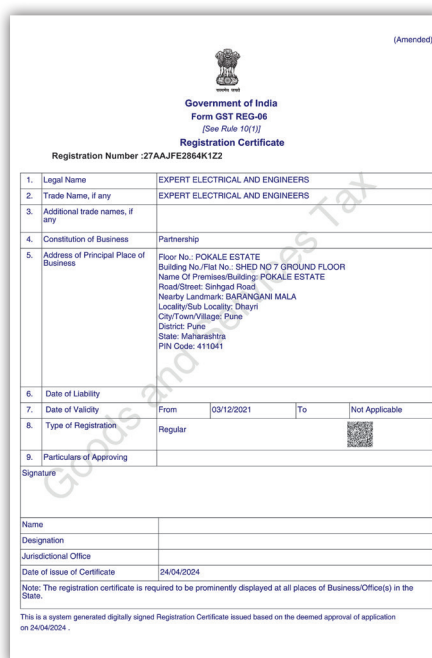

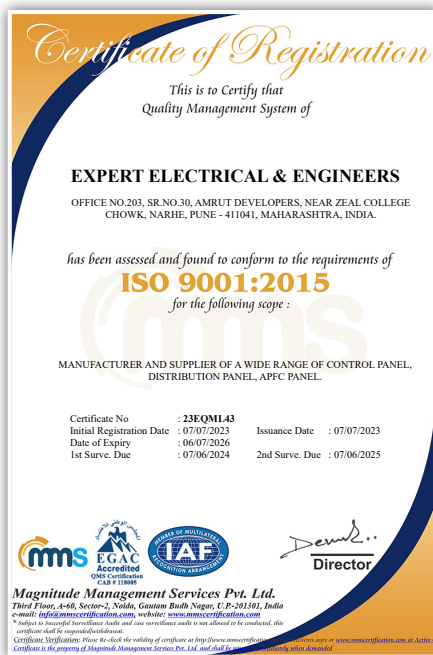

ALL TYPES OF MAINTENANCE WORK

Expert Electricals & Engineers is a dedicated provider of comprehensive electrical maintenance services, specializing in ensuring the safety, reliability, and efficiency of electrical systems for residential, commercial, and industrial properties. With a team of highly skilled electricians and technicians, we offer proactive and reactive maintenance solutions tailored to meet the specific needs of our clients. Our focus on preventative maintenance, timely repairs, and system optimization ensures that your electrical systems operate at peak performance, reducing downtime and extending the lifespan of your equipment.

CERTIFICATIONS & ACHIEVEMENTS

OUR VENDORS & CLIENTELES

We collaborate with reputable and proven companies that adhere to industry standards and meet strict quality requirements. Sensitive equipment such as relays, PLCs, contactors, and circuit breakers are vital to the efficiency of our panels, so we carefully select the best in the industry for precise performance. Designing the right equipment with its exact configuration shapes our approach to quality and durability. Here are some of our regular vendors:
